Dr. Joshua Lederberg
Stanford University School of Medicine
Department of Genetics
Stanford, California 94305

Dear Doctor Lederberg:

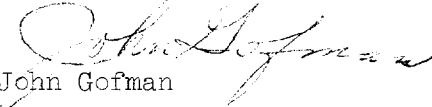

I am delighted to send you a copy of the paper I gave at the IEEE Nuclear Science Symposium last week. It will be published in the proceedings of that Institute in February 1970.

Please feel free to criticize, castigate, quote or excerpt any part of this for any purposes you deem useful.

I thought it might also be of interest to you to have a copy of an earlier publication concerning the chromosome story in cancer. That work is the basis for some of the numbers quoted in this paper.

Perhaps sometime we can get together. I enjoyed your lecture at the Scientist and Social Responsibility course last year very much.

Sincerely yours,

John Gofman
